MENU FOR MARKET DAY LUNCH GIVEN

Home Baked Beans, Fresh Buns,
Fresh Wieners, Crow Wing Co.
Butter, Java, Coffee, Cream

Lunch Served Promptly 11:30 A. M. Tuesday,
April 24---Merchants Bargains, the
Auction, Other Events

- * Ten gallons home baked beans *
- * 20 dozen fresh buns. *
- * 50 pounds fresh wieners. *
- * Crow Wing county butter. *
- * 25 Gallons Java coffee. *
- * Crow Wing county cream. *

The foregoing menu to be served at the Market Day lunch, Tuesday, April 24, indicates that the Retail Trade committee of the Chamber of Commerce expects to feed a multitude on the occasion of the first big monthly co-operative trade day in Brainerd and that in spite of the high cost of living, the inner man will not be neglected.

The lunch is to be served promptly at 11:30 A. M. with a delegation from the House and Social committee selected by Chairman Fritz Stout in charge. Carl Wright has been made chief of this division and will give his entire attention to the work of supplying the visiting farmers promptly an efficiently with smoking hot food.

Heads the Greeters
Carl Adams, chairman of the Retail Trade committee and members of his staff will act as a reception committee, greet the visitors and make their stay at the Chamber pleasant. County Agent Colquhoun, because of his intimate acquaintance with the farmers, will be an important factor in making them feel at home, both at the Chamber rooms and at the auction grounds near the Zierkle livery on Front street, where T. B. Brusegaard will have charge of the arrangements and H. C. Zierkle act as auctioneer. Clerks from the three banks will be available at the auction to list property and record sales.

Many Tickets Issued
Two hundred and sixty lunch tickets have been given out to farmers by the merchants and business men who advertised on the Market Day page and extra tickets are available at the office of the secretary. They will cost 25 cents the ticket, and lunch will be served only to those holding tickets. These may be obtained by the farmers from the merchants whose announcements appear on the Market Day page in the weekly papers this week.

Business Men's Opportunity
Business men are afforded an opportunity to indicate their interest in their customers from the farming districts by joining them in the lunch making them feel at home and more than welcome in Brainerd and assisting in the noon-time entertainment. All are urged to plan ahead and advise the wife that they "will lunch down town Tuesday." Everything will be very informal, there will be plenty to eat, good fellowship and good cheer apparent everywhere and a combined effort made to encourage a practical get-together spirit between merchant and farmer. A more apropos time was never afforded and with fair weather and the co-operation Brainerd is noted for, the day promises to be one long to be remembered by all concerned.

America May Have to Further Centralize as Europe has Done

(By United Press)
Washington, April 21—It is believed that America may have to further centralize the government as has Europe because of overlapping. Three agencies are trying to handle the food problem, the department of agriculture, the federal trade commission and the national council of defense.

Alarming Report of Increasing Gravity German Revolution

(By United Press)
Buenos Aires, April 21—Alarming reports of the increasing gravity of the German revolution in southern Brazil are received. Uruguay fears trouble and mobilizes her entire standing army with orders that the militia be held in readiness to oppose any attempt of the Germans to invade, say late dispatches.

PRESIDENT WILL AID RUSSIAN REPUBLIC

Washington, April 21—President Wilson probably will name within a few days a group of distinguished Americans as a commission to be sent to Russia to confer with members of the new provisional government there on ways in which the United States can assist to strengthen the democratic movement and aid Russia in the war against Germany.

Elihu Root, former secretary of state, appeared to be the probable selection for chairman of the commission. The commission will be entirely nonpartisan. The president desires to demonstrate by the character of the men he chooses the deep interest he feels in the success of the democratic movement in Russia.

He has discussed the question twice with his cabinet and is understood to have about made up his mind on the names of the principal members of the commission.

Authorize President Call for Volunteers Before Conscription

(By United Press)
Washington, April 21—The house military committee today voted 12 to 8 to report out the general staff army bill with the amendment authorizing the president to call for volunteers if he wishes before the selective draft is resorted to.

That Brainerd is becoming a metropolitan city is proved by the fact that several different attractions can draw good audiences the same evening.

In spite of the fact that the Catholic church was packed to the doors, the Children's Hour entertainment had a full house, and the Toboggan club dance and the picture shows, no doubt, were well patronized, there were enough good people left to very nearly fill all the available space in Elks hall. The size of the audience was realized, after the lecture, when those most interested crowded into the two adjoining rooms to meet the speaker of the evening and partake of frappe and fancy cakes.

Mrs. Ueland's lecture was not an arraignment of men, for unjust treatment of women, it was simply a historical sketch of the evolution of woman from her position as chattel and slave, then as useless ornament and plaything, into social and industrial equality with man. She showed how every step in advance had been gained by breaking down the iron bars of prejudice, the same prejudice that is now barring her way to political equality.

When Lucy Stone first dared to attend Oberlin College, she had to dodge the rotten eggs thrown at her by her male classmates, but she persisted, and made the pathway to higher institutions of learning so safe for girls, that the daughters of the first families today are scarcely considered fitted for life without a college education.

The first dry-goods store that employed a girl to sell ribbons was boycotted, but today women are replacing men in all industries, so that the men may be freed to fight for political freedom for all men. Women are even asked to enlist for farm labor, which is not illogical in view of the fact that they were the first farmers. When a baby came into the cave home, the mother instinct was aroused to make provision for a surer food supply than the father's sling-shot or bow and arrow could provide, and so she sowed grain. In order to clothe her child and make her home a more attractive place in which to rear it, she learned to weave grasses into clothing, and to make mats that it might be kept from the dampness of the earth-floor, when it slept or played.

And this mother instinct still persists. Wherever women have secured the vote, their first efforts have been directed towards securing favorable child legislation. New Zealand was given as an illustration of this fact. Here, the vote has given the women such potential power that the number of deaths per thousand of infants under one year has been reduced to fifty for every thousand—less than one-third of the death rate per thousand in these United States. The reason for this is that the legislators are so anxious to please their women constituents that they ask them to propose legislation, and it is always in the interest of the child and the home. The consequence is, that nurses are employed to teach mothers how to care for themselves during pregnancy, how to feed and care for the child, and how to avoid preventable diseases. This is the

A Deed of Daring.
Asked what was the bravest deed he had ever seen, Lord Roberts said he remembered that while he was on his way to Lucknow his force was stopped by a walled inclosure. A little soldier, a Punjabi Mohammedan, seeing the difficulty, endeavored to open the door which barred the way. When he tried first to draw the bolt one of his hands was cut off by one of the enemy; then he managed to unfasten the bolt with his other hand, which was subsequently nearly severed from the wrist.

Spring Colds Are the Worst

They lead to catarrh and pneumonia. They weaken the entire system and leave it unable to resist the sudden changes. They interfere with your digestion and lessen your activity. Neglected they soon become that dread disease known as systemic catarrh. Don't neglect them. It's costly as well as dangerous.

most scientific way of preventing race suicide.

Mrs. Ueland said that the argument that the vote would interfere with home duties could be answered by the fact that it hadn't in such states as Wyoming, where the women had been voting for forty-nine years. She declared that the women of that state were still being married, bearing children and doing their own house work. In fact, she defied any one to tell a Wyoming from a Minnesota woman.

The other argument, that women would become office seekers, could be similarly answered. The fact was, that political privilege didn't change a woman's nature any more than educational and industrial advantages had changed her. The great majority of women preferred home life and motherhood to anything else, and they always would. If this had been denied some women, who were fitted by nature and education for holding office, why shouldn't they seek it? Isn't it simply because we are not accustomed to seeing women in public office, that we are shocked by the idea?

We accept the idea of a woman county superintendent, because we have become accustomed to that, but we hold up our hands in horror at the idea of a woman congressman. The fact of the matter is, that every political privilege that has been granted to men, as well as women, has been opposed by those who have political power and who do not wish to share it. The czar did not wish to allow the Duma to share the sole political power that he exercised, but he was finally compelled to do so, and because he was so jealous of this power, the people have taken it from him. Society now demands that its women shall be intelligent enough to discuss public questions, that they shall keep themselves informed on the burning political questions of the day in order that they may teach their sons and enlighten patriotism, and yet it denies them the privilege of using that acquired knowledge for the benefit of their country. It denies them the right to have their opinions counted, to steal half an hour once a year from their home duties in order that they may record this opinion on the side of law and order. For, when all is said for and against equal suffrage, the fact remains that wherever women have voted, they have cast their ballots on the side of decency and righteousness.

WOMAN'S REALM

TEACHERS GET SALARY RAISE

Decisive Vote of the School Board Taken Just After the Juniors Served Delicious Lunch

IN SESSION TILL 11:45 P. M.

Bids Asked for 200 to 400 Tons of Coal, Junior Class Gets Hearty Vote of Thanks

School teachers of Brainerd have had their wages raised, some \$2.50 a month, many \$5 a month, some \$7.50 at the annual election of teachers. All members of the board were present Friday evening except R. R. Wise, R. J. Hartley and Henry Mollanen.

The board wrestled a full three and a half hours on the salary question, well realizing that increased cost of living made a raise necessary and then figuring how such an advance was to be made on the taxes raised in the district.

About the middle of the session a delegation of the Junior class visited the board and distributed a luncheon which included rich coffee, whipped cream, sandwiches, apple turnovers, ice cream and angels food.

After that luncheon the board put the salary increase to a vote and it carried unanimously.

The fuel committee was instructed to solicit bids for 200 to 400 tons of coal, bids to be opened at the next regular meeting May 7.

The secretary was instructed to have an estimate made of the various costs of buildings and equipment, as insurance policies are about to expire and will be renewed. The superintendent was also instructed to get an inventory of the contents of all buildings.

A vote of thanks was given the hospitable Junior class and then the board adjourned at 11:45 P. M.

Mrs. O. C. Skauge and Miss Mildred Skauge entertained at a one o'clock luncheon at their home on Friday in honor of Miss Anna Michaelson, a bride-to-be. Covers were laid for ten and the color scheme was pink and white. After the luncheon, the guest of honor was showered with aprons of all styles, which were brought in and presented by little Miss Evelyn Loom.

For Miss Sheridan

Mrs. A. W. Ide gave a party Friday afternoon for Miss Ina Sheridan, a bride to be. Fifteen guests were present. Mrs. Ide gave her a card index to which each guest had contributed a recipe. Holders and dust cloths were also given Miss Sheridan. A luncheon was served, American beauty roses being used as table decorations.

Titles Were Run Slowly so That all Were able to Spell Out and Read Progress of Story

When "Alice in Wonderland" opened to the kiddies at the morning matinee about 600 rushed in and filled the spacious Best theatre. Manager Workman was compelled to close the doors and tell the overflow to come back in the afternoon and see the show.

Alice's adventures were followed with breathless interest. Mr. Workman ran all titles of the play slowly so that all had a chance to spell out the words, if necessary, and read every word.

When the queen threatened to cut off Miss Alice's head, there was a burst of indignation from the kiddies. And when the rabbit interceded there was a roar of applause. And gentle little jokes carried their point and were observed quickly.

The mock turtle told his tale of woe to Alice and remarked his lessons had been 10 hours in length, then 9, then 8, and were so named because they lessened daily, and many wished they had a mock turtle schedule.

The lobster quadrille splashed out of the sea and went through its evolutions, all for the edification of Alice and her crowd of spectators.

Don't imagine you must be a kid to be interested in the fair Alice. Any grownup will be just as charmed to see how marvelous film photography works out the mysteries of Alice's tour through wonderland.

The play received the approbation of the children, and by the way, they were acute judges too. Alice will appear again this evening.

WORK WEARS ON THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Many Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills are for weak kidneys and bad backs. Their effective work in Brainerd is convincing proof of merit.

J. C. Beck, carpenter, 809 Tenth St. S., Brainerd, says: "I couldn't stoop without pain and was hardly able to do any work at all. I got Doan's Kidney Pills at H. P. Dunn's Drug Store and they soon fixed me up all right. I was able to again work as usual and I haven't been obliged to take any kidney medicine since." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Beck had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv't.

SPIRIT OF THE GARDEN.

It Voices the Human Sense of Accumulated Beauty.

When all is said, gardens are but expressions of sentiment, the outward manifestation of human hearts which bloom with sympathy and kindly thought. Love of gardens is an instinctive sense; lacking it, appreciation cannot be instilled because, as Bovee wrote, the beauty seen is partly in him who sees it. The beautiful meaning of flowers does not have to be told to little children. They are gifted with divine intelligence in knowing that "flowers are God's thoughts of beauty taking form to gladden the mortal gaze; bright gems of earth, in which perchance we see what Eden was, what paradise may be."

"Perhaps no word of six letters concentrates so much human satisfaction as the word 'garden,'" declares a great poet of our own day, Richard Le Gallienne. "Not accidentally, indeed, did the inspired writer make paradise a garden, and still today, when a man has found all the rest of the world vain, he retires into his garden. When man needs just one word to express in rich and poignant symbol his sense of accumulated beauty and blessedness his first thought is of a garden. The saint speaks of the 'garden of God.' The word 'heaven' is hardly more universally expressive of happiness than the word 'garden.'"

The garden is the voice of nature calling to her children who have strayed far afield. It is not a loud wailing, articulate voice; it is like the still, small voice of conscience.

And as Kents expressed it, "Heard melodies are sweet, but those unheard are sweeter." And there at once is the voice and spirit of the garden.—Noble Foster Hoggson in Philadelphia Ledger.

Rose to the Occasion.

"Papa, will you please give me a penny?" asked the kid.

The father was annoyed—not because of the demand, but because of the triviality of it. He thought the child was growing up—and behold, the child was still begging for pennies. He protested.

"Look here," he said, "you're altogether too old to be coming to me for a penny. I'm ashamed of such childishness in you! My goodness, when I was your age I—"

"Listen, dad," interrupted the boy in a gruff voice. "I didn't know you felt that way about it, old son. Slip me a dollar, will you?"—Cleveland Plain Dealer.

United States Government Loan

While the terms and conditions of the new Government Loan have not yet been announced, the patriotic spirit aroused by recent events, together with the opportunity to secure a tax-free Government bond, doubtless will lead to a ready response.

If the Government follows the precedent established in previous issues, it will enable patriotic citizens to subscribe in amounts of

\$25, \$50, \$100, \$1,000 and Upwards

It is the duty of every American to assist in making this loan a success, not only by entering his own subscription, but also by urging subscriptions from those of smaller means and commonly not considered in the investor class.

We offer our customers and the general public the facilities of our office for making subscriptions, subject to Government Regulations as later formulated. Further particulars will be furnished.

Good for the Whole Family

"Granny" Chamberlain "A good cough remedy is one that can be depended upon to cure coughs. Not one that cures some particular cough, but coughs in general."

It must be a cough remedy that can be relied upon for all the different coughs that are so prevalent. While the causes of all coughs are primarily the same, yet the condition of the patient is what makes the difference in the nature of the cough itself. Coughs of healthy persons are easier to cure than the coughs of invalids. The powerful convulsive cough of a large man is harder to cure than the cough of a baby. If you get a remedy that will cure a large man's cough and yet not be too powerful for the baby, you have a good cough remedy.

Chamberlain's Cough Remedy

is just this kind of remedy. It is good for any member of the family. It relieves coughs of all kinds. It is the product of much thought and study to produce an ideal cough remedy. It is composed of things which cure easily and soothingly without harming the most delicate tissues of the throat. It acts as easily and safely on the young as on the old, and is the ideal remedy for coughs, colds, croup, influenza, whooping cough and bronchitis.

In these days of high cost of living the resources of the country should be conserved, and one product this section of the northwest boasts of is its fish, the first of which are now running in the streams and are being marketed in great number, in fact the market in St. Paul and Minneapolis has been glutted with pickerel for several days, the receipts being very heavy and prices have accordingly dropped to 4 1/2 cents per pound to the shipper, all fish under a pound and a half being rejected. This information ought to be sufficient to induce people who are spearing pickerel for the market to select only the larger fish and allow the smaller

One of the propositions the government has in regard to raising revenue for the "pay-as-you-go" war is to tax all incomes over \$3,000 for single persons, and \$4,000 for the head of a family, taxed 2 per cent, and to steadily increase the rate for larger incomes up to 100 per cent tax on all incomes in excess of \$100,000, which would cover a large share of the expense and it would place the burden on people perfectly able to stand it. Men and money are needed, if the volunteer system fails to provide the required number of the former conscription will be resorted to. The war is on, we must meet its requirements.

Bemidji has been "cleaned up" by the chief of police who took his orders from the city council and made the owner of every low awning raise it to the required height or remove it, and then turned his attention to the alleys and sidewalks with beneficial effect. U. S. AGENTS SEIZE MANY GERMAN RIFLES.

Chicago, April 21.—More than 1,500 rifles collected by German conspirators at Milwaukee are reported to have been seized by William Fitch, special agent for the department of justice, stationed here.

Fitch and his aids are following closely developments of German activities in La Crosse, Kenosha, Racine, Milwaukee and other cities.

"MYSELF—UNT GOTT"

At this time under the relations of the United States with Germany, the historic poem written during the Spanish-American war is recalled and has been published from one end of the land to the other, and Captain Coghlan, U. S. N., who recited it at a banquet of the Union League club of New York, made himself famous the poem being one that every one remembered. The history of the affair as published recites that the poem was a "take off" on the Kaiser's well-known confidence in himself and his uncompromising belief in the doctrine of the "divine right of kings." Some friction had resulted between the United States and Germany in connection with the Spanish war, and the Coghlan poem was one symptom of that feeling.

Germany and Austria at that time sided with Spain, as that country was championing the old cause of Bourbonism and was fighting a republic. German warships in Manila bay had even sought to prevent Admiral Dewey from taking Manila, but Dewey called their bluff. The Germans never got over that moral defeat, and the Kaiser and his henchmen from time to time let fall slurs on our navy and country. One of the pet slanders which they spread was that our navy was made up of 95 per cent Germans and other aliens who would not fight if war came.

Capt. Coghlan of course committed a great indiscretion in giving vent to anything which would cast ridicule on the head of a friendly nation, and he was reprimanded by our government—but the fact remained that his picture of the Kaiser—brutal as it was—was so true to life that the whole world saw the joke and joined in the laugh.

Though Coghlan was "punished" in theory, he became a hero in fact, and some of the phrases of his poem have been quoted and requested.

It was as follows:

Der Kaiser of dis Fatherland

Unt Gott on high all dings command

Ve two-ach! Don't you understand?

Myself—und Gott!

Vile some men sing de power divine,

Mein soldiers sing "Der Wacht am Rhine"

Und drink der health Rhenish wine

MAY WEAR STEEL HELMETS

Plans Under Way to Furnish Them to Marines.

Chicago, April 21.—Steel helmets, similar to those worn by soldiers on the European battle front, will be worn by the United States marines.

Word was received here that two headpieces will be shipped to Captain Backett at the Maine recruiting station here for exhibition.

Former members of the marine corps who have deserted or been discharged for bad conduct or fraudulent enlistment may re-enter the corps under authority given to Major General Barnett provided that they can show that their conduct has been good for a year. Such recruits will be placed on a year's probation before their record will be declared clear.

Herbert C. Hoover to Direct Food Situation in America.

London, April 21.—Herbert C. Hoover will start for Washington immediately to resume his new position as chairman of the American food board.

He will retain his position as chairman of the American commission for relief in Belgium, directing its general policy, at least, until matters develop further in Washington.

The commission's supplies will be transported by the commission staff to the Belgian frontier and will be handed over there to efficient French and Belgian committees who will undertake the distribution of the supplies and the care of the destitute.

FRENCH LAUNCH NEW OFFENSIVE

Enter German Second Line in Argonne Forest.

PROGRESS APPEARS STEADY

Since Last Monday Over Nineteen Thousand Prisoners Have Been Taken and More Than One Hundred Pieces of Artillery Captured.

London, April 21.—Steady progress is being made by the troops of General Nivelle in recovering the ground in the regions of Soissons and Rheims.

In a new offensive the French also have entered the German second line in the Argonne forest. German counter attacks on the Vaucleurs plateau, south of Laon, have been repulsed.

Since the beginning of the French offensive Monday more than 19,000 Germans have been taken prisoner. Guns captured in the past five days exceed 100, not including machine guns.

Northeast of Soissons the French occupied the village of Sancy, a mile east of Nanteuil-La-Fosse, and continued their advance toward the Chemin des Dames, a road paralleling the Aisne, four miles to the north of the river.

On Vaucleurs plateau in the region of Ailles and Huetebis the Germans are reported by Paris to have launched an attack "with large effectives." The effort was frustrated.

Artillery is Very Active.

Artillery fighting in this region is reported to be continuing very actively.

East of Rheims, in the region of Moronvilliers, the French have taken several important points of support. The German resistance here is reported to have been stubborn.

In the Argonne forest French detachments penetrated the German positions as far as the second trenches. A great number of German dead were found.

Berlin says that a second French attempt to break through in the Champagne was frustrated and the latest statement adds that new engagements have developed between Prosses and the Suippes valley.

There has been little activity on the Northern front in France. From the Eastern front there are no reports of fighting.

Both in Palestine and in Mesopotamia, north of Bagdad, British forces have added to their recent successes.

RUSHING UP MORE TROOPS

Germans Concentrating Large Bodies on French Front.

London, April 21.—One of the correspondents at British headquarters in France in a dispatch says:

"The cardinal fact of the battle in France is that the intense concentration of German troops exceeds anything known during the war. That concentration is being intensified now that Field Marshal Hindenburg's efforts to avoid a battle is known to have failed.

"The German morale perhaps has fallen since the reduction in rations. There is great anger among the infantry against the artillery, but the enemy is fighting stiffly and working feverishly at his defenses."

BRITAIN SUMMONS ALL MEDICAL MEN

London, April 21.—The war cabinet decided that every physician and surgeon and every man with medical training of military age must be called up for service immediately.

In reference to the calling up of the physicians and surgeons the following official explanation is given.

"The enemy, in total disregard of the accepted tenets of civilized warfare, has deliberately instituted a submarine campaign against hospital ships and it has, therefore, become essential that a large number of hospitals should be established overseas in the various theaters of war for the treatment of sick and wounded.

"In order to allow this to be done with great rapidity it is essential to secure the services of every doctor who possibly can be spared from the United Kingdom."

POLES SEEKING EXEMPTION

Are Not Willing and Real Subjects of Germany.

Chicago, April 21.—Candidates for United States citizenship who were born in German Poland made a formal appeal to the federal authorities urging that the rule forbidding naturalization of subjects of the German empire during the war be made not applicable to them.

United States District Attorney Clyne agreed to hear the plea and forward it to Washington.

It was urged that the people of Polish birth are not willing and real subjects of Germany.

ALIEN ENEMIES MUST TURN OVER FIREARMS

Minneapolis, April 21.—All unnaturalized Germans as "alien enemies" were directed to surrender within five days to the clerks of the United States district court or sheriffs of counties in which they live all firearms, explosives and other weapons they may have in their possession, in a statement issued by Alfred Jaques, United States district attorney, and in an order from the department of justice accompanying it.

The order lists for the first time the restrictions bearing on activities of alien enemies.

Alien enemies are forbidden to have in their possession arms, bombs, explosives, material for making explosives, as well as silencers for firearms.

Alien enemies are forbidden to have in their possession or to use or operate aircraft, wireless apparatus, signaling devices of any kind, cipher codes and books, letters or papers written in cipher of invisible ink.

Alien enemies are forbidden to approach within a half mile of any federal or state fort, camp, armory, arsenal, naval vessel or station or any munitions factory or place where munitions are stored.

ONE MAN COULDN'T SPEND BIG WAR LOAN.

Washington, April 21.—Spending the money at the rate of \$1 a minute it would take one person 13,318 years to get rid of Uncle Sam's \$7,000,000,000 war fund. Mathematical sharks figured that such a seventh degree billionaire would go broke in the year 15235.

Talked Even Then.

Mr. Styles—So you've been to the dentist all the afternoon?

Mrs. Styles—Yes, dear.

"Well, there's one thing certain; you couldn't talk much when he was working on your teeth."

"Oh, yes, I could. Do you know, the dentist said he never saw a woman who could talk like me with her eyes."

A Suggestion for Beautiful Interiors

You get tired of old furniture, old wall paper, old rugs, etc., and you can throw them away and get new.

But the interior wood work of your home is PERMANENT. You must live with it every day for years and years.

How important it is then that you get the most attractive designs and wood that you can buy.

WASHINGTON FIR is fast becoming one of the most popular woods for interior use. Its beautiful grain is wonderfully improved with varnish or stain. It is hard enough so it does not mar easily and it can be worked into the most beautiful of doors, cabinets, buffets, side boards, colonnades, etc.

We have a very select stock of fir lumber for interior finish and will be glad to show it to you any time.

RIVERSIDE GUN CLUB

To Talk Over State Shoot Affairs at Meeting at Chamber of Commerce Sunday Afternoon

THE BIG EVENT HERE IN JUNE

100 to 150 Shots Coming, Some From California and Other States, \$1,000 Added Money

An important meeting of officers and members of the Riverside Gun club will be held at the Chamber of Commerce Sunday afternoon at 3 o'clock at which time matters concerning the state shoot to be held in Brainerd June 21, 22 and 23 will be discussed. Art White is the president of the club, H. W. Linnemann chairman of the finance committee and Edw. Anderson secretary.

At least 100 to 150 shots are expected at the tournament, many from California and other states. The Minnesota state shoot in the past has ranked second only to the Grand American handicap. The Chamber of Commerce has donated \$150 for the event, a number of the gun club members \$280, while the state organization will also contribute. As a rule \$1,000 added money is collected.

RETURNS FROM SOUTH

Howard Mahlum Made an Exhaustive Study of Agriculture and Dairying

Howard Mahlum, who has been touring through the south for the past three months for the purpose of studying agriculture has returned to the city.

The south has given Mr. Mahlum a fine opportunity, both practical and theoretical to advance his studies in farm, dairying and stock raising. Most of his time was spent in Mississippi and Louisiana.

He had five years study in the University of Minnesota and the University of Indiana. He will go to the University of New York at Cornell, N. Y., this fall and will specialize in farming and dairying.

War Builds New City of Tents

(By United Press)

Great Lakes, Ill., April 21.—Born of patriotism and nourished by war, this town of Great Lakes bids fair to soon become the greatest naval recruit mobilization point in the world. Before the outbreak of hostilities with Germany, there were several hundred "rookies" at the naval training station here. They flocked in at the rate of more than 100 a day until now a population of 30,000 is soon expected.

The government obtained use of 157 acres on each side of the original station, to accommodate the crowds of youths that swarmed to enlist. A new city of tents springs up. Now government engineers are preparing to drain a new tract, where more tents will be pitched. It was even necessary to cover the parade ground with canvas housings for Uncle Sam's embryo bluejackets.

READY IN FOUR MONTHS

Colonel Roosevelt Is Swamped With Applications.

New York, April 21.—If the war department will accept Colonel Roosevelt's offer to lead a division to the European war front here's what the colonel can do:

Have an organized division of 23,000 men, including infantry, cavalry, artillery, engineers, machine gun detachments and aerial corps, ready for active service within four months.

He has 100,000 reserves waiting to be called for service. Requisitions are ready for every item of military equipment for the division. These requisitions can be presented by the war department within two hours after the command is organized.

Officers already have been selected and so great has been the response that the colonel could not only enroll a division of 23,000 men, but has enough applicants to make three full army corps.

The Springfield rifle has more than 100 parts, and it requires more than 1,400 distinct factory operations to produce the finished piece for Uncle Sam.

CROSBY CLAIMS A FAST TEAM

(Crosby Courier)

Manager Edward Krueger of the Crosby base ball team has been busy looking up promising material for the team and is receiving from one to three letters every day from players who want to show their ability on the Crosby diamond.

Local stock took a boost when "Swede" Erickson, former short stop on the Brainerd team and a well-known base ball player in these parts, moved to Crosby. Some doubts were entertained as to who would fill the shoes of Earl Lovdahl, who is on the U. S. S. Kansas, but Erickson will play the position nicely.

Hi Torason, the left hander who stood Hibbing on his head at the state fair, has been signed by Crosby. H. W. Hofmeister, one of the best amateur catchers in the state will play here. Adrian Bouldreau will play 2nd. Rgt Doyle of Kansas City 1st.

A. N. Granberg, pharmacist at Lovdahl's will cover third according to the present dope. Granberg has had several seasons of league experience in Wisconsin and will prove, no doubt, a strong addition to the team. Redfield and Krueger will play field and R. A. Waltaum, a 350 hitter, will also play field. Other local players will be given a tryout.

The season's schedule will be made up soon now and it will contain several games with our sister village of Ironton which is reported to have an exceptionally strong lineup.

AMERICA'S WAR DOG IS THE AIREDALE

(By United Press)

San Francisco, April 21.—The German police dog which turned out scout and did Red Cross duty and the St. Bernard which has been used by French and Italian soldiers, is to be followed by an American war dog, the Airedale, in the opinion of dog breeders and army men here. There are thousands of Airedales where there are few pointer dogs.

Sprains and Strains Relieved

Sloan's Liniment quickly takes the pain out of sprains, bruises and all muscle soreness. A clean, clear liquid easily applied. It quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like mussy plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists. 25c.—Adv.

CROP REPORT OF THE COUNTY

Slow Spring With no Setbacks, However, as Were Experienced in Year of 1916

THE RAINS HELPED IMMENSELY

Big Crops of Potatoes, Beans, Rye and Oats to be Planted, Seeding in Progress

In reviewing crop conditions in Crow Wing county, one may note that the season is fairly well advanced with no setbacks so far recorded. Last year severe frosts occurred which did considerable damage. Some farmers have planted barley, but so far little seeding has been done on the same. No corn has been planted. Fruits are not developed at this time. Meadows have been late in starting. Much clover is to be planted.

Seeding of oats is in progress in sections of the county. Potatoes, corn and beans will not be planted generally for two or three weeks. Pastures and ranges have been late in starting. Winter rye is just starting up.

Very little spring wheat will be planted. There was a short crop last year which was affected by the hot weather. There is little seed on hand. Tobacco is not raised in the county, but the crop flourishes in Stearns county and counties south.

Planting of truck crops and vegetables is not yet under full swing. Farmers in general will raise heavy crops of beans and potatoes. The county, as a rule, does not raise a large crop of winter wheat, and little flax and no sugar beets. Considerable acreage will be devoted to rutabagas, onions and turnips.

Rainfall for the month so far has been 1.84 inches.

THE WATCHMAN COLUMN

By Geo. Martin

Inventive Genius

Inventive genius is running amuck in this country. Something ought to be done to stop it. If you don't believe it, look what it's done to our lead pencils. Time was when a lead-pencil was just a plain, unassuming writing utensil that started at one end and ended at the other. When it wore its nose out doing its duty, you gave it a few slices with a knife and it was ready for work again. It was so simple a child could manipulate it. Inventive genius has put an end, and a lot of other unnecessary things, to the simple lead-pencil. The lead-pencil today is as difficult to understand as a time table. Not only must we buy it, but we must learn to use it. We must figure out whether it unfolds, works with a spring, is run by a lever or has a secret combination. That's what untrammelled inventive genius has done for us.

Clear Your Skin in Spring

Spring house cleaning means cleaning inside and outside. Dull pimply skin is an aftermath of winter inactivity. Flush your intestines with a mild laxative and clean out the accumulated wastes, easy to take, they do not gripe. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pills tonight and throw off the sluggish winter shell. At druggists. 25c.—Adv.

"Why don't they write a song about 'Daddy'?" asked McCormack

John McCormack

And now here is the famous tenor singing such a song for the Victor. "Tommy Lad" came into being just in time to be a sort of response to Mr. McCormack's thought, that in view of all the songs about mother, we might have at least one about "dad."

In this song a father speaks to his boy in a way that youngsters seldom heed at the time but remember with tears in later life. Behind the effective simplicity of this song is the age-old wish of every father, that his son may be happy and successful—and a better man than himself.

This record will be an enjoyable novelty to a host of McCormack admirers.

Victor Red Seal Record 64630. Ten-inch, \$1.00

A fascinating fox trot from "The Century Girl" and a tuneful one-step

The medley fox trot from "The Century Girl" contains at least two of the best tunes Irving Berlin ever wrote—"The Broadway Chicken Walk" and "Alice in Wonderland." The one-step on the opposite side of the record is "Pack Up Your Troubles In Your Old Kit Bag and Smile, Smile, Smile," a medley which includes two popular successes in addition to "Pack Up Your Troubles," which is the hit of "Her Soldier Boy." Played by the Victor Military Band, both pieces are sure to become favorite dance numbers.

Drinking of Water

(BY V. M. PIERCE, M. D.)

The general conclusions of the latest Medical Scientists proves that drinking plenty of pure water both between meals and with one's meals is beneficial to health. For a great many years it was the erroneous opinion of many medical men and the public generally that the habit of drinking water with the food was harmful to digestion. It has now been proven by means of the X-rays and actual tests upon many healthy young men that the drinking of large amounts of water with meals is often beneficial. Therefore if you want to keep healthy drink plenty of pure water (not ice water), both with your meals and between meals. If you ever suffer from backache, lumbago, rheumatism, or any of the symptoms of kidney trouble—such as deep colored urine, sediment in urine, getting out of bed at night frequently and other troublesome effects, take a little Anuric before meals. These Anuric Tablets can be obtained at almost any drug store.

NERVOUS BREAK-DOWN.

SOCIALISTS WOULD END W R

Hungarian Organization Demands Action by Central Powers.

Berne, April 21.—The Hungarian Socialists have adopted resolutions at a secret convention demanding that the central powers make public their peace conditions, excluding all forcible annexations, according to the Tagwacht, the official organ of Swiss Socialist Democrats. The convention was the first to be held since 1914 and several resolutions of a drastic and even revolutionary character were adopted.

The convention called on the Hungarian government to abolish all restrictions on public gatherings, to restore the freedom of the press and to furnish genuine proof of the honorableness and sincerity of its desire for peace.

Nine years of continuous, consistent development, improvement, refinement!

Each year a better car and a better value!

Over three hundred thousand now in use!

That is the history of the car that built Overland because it represented integrity of value.

And as steadfastly as this car has represented original integrity of value, so also has The Willis-Overland Company sustained that integrity of value throughout its service in the hands of those who purchased it.

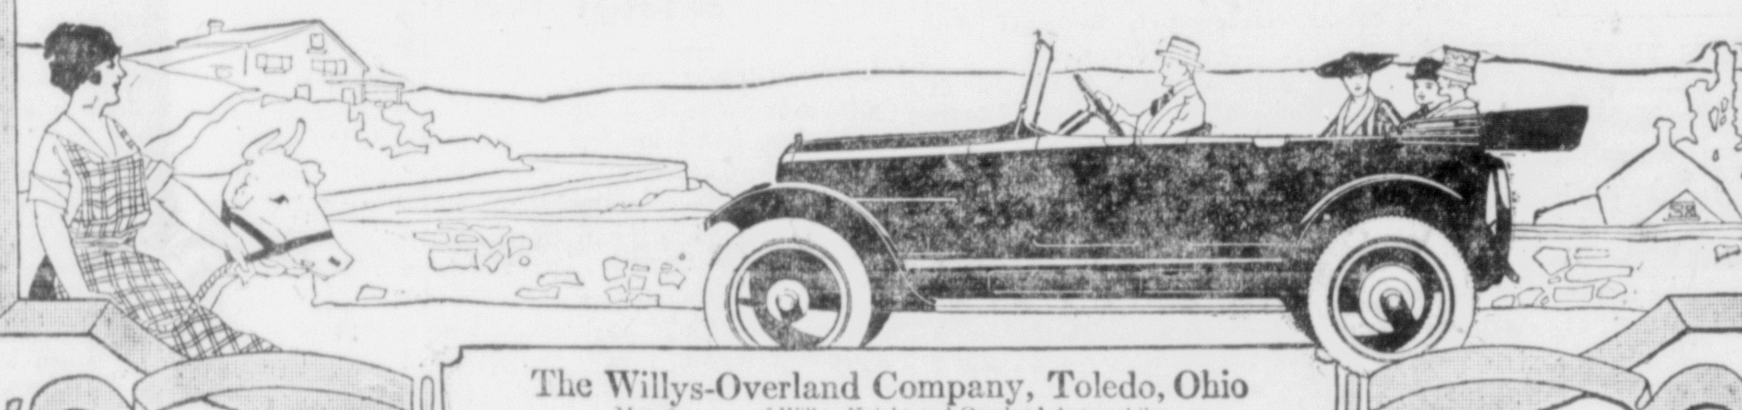

The Overland Big Four of this season and its twin—except for the motor—the Overland Light Six, are the direct outcome of all this development.

More than three hundred thousand owners and more than four thousand dealer and factory-branch organizations have assisted this development by their experience with these cars and their helpful suggestions of improvements.

In their new beauty, in their perfected easy riding qualities, in their proven sturdiness and mechanical excellence, in their admitted tire, fuel and oil economy, these cars are worthy of the confidence we have, that they will further enhance Overland prestige.

The prices are \$850 for the Big Four, \$985 for the Light Six, while we have them to deliver until May 1st—thereafter \$895 and \$1025.

SWEDISH WORKERS STRIKE

Quit as Protest Against High Price of Food.

Stockholm, April 21.—Dissatisfaction with the size of the bread ration, the shortage in many kinds of provisions and high prices generally resulted in a strike of laborers in all the shops in the town of Vestervik, which has a population of some 3,000.

At Karlstad 400 women factory workers assembled at the city hall and sent a delegation to the mayor to demand an increase in the bread allowance.

BLOCKADE IS IMPREGNABLE

German Paper Says There Is No Submarine Cure.

Amsterdam, April 21.—“Will the American fleet enable our enemies to break our submarine blockade? The answer is, most certainly not,” says the Koelnische Volkszeitung, which adduces a curious and cumulative argument which it evidently considers final that “the submarine cure has not been invented. Therefore, it cannot be invented because there is none.”

“It will be painful for us,” the newspaper continues, “to sink good German ships, but we cannot be sentimental in this respect and will dispose of America's seizures in fifteen to twenty days. The loss of German capital in that connection will hardly equal three days of our war expenditure.”

CIVILIAN OFFICERS SCARCE

Experienced Men Needed to Handle Merchant Ships.

Washington, April 21.—Vigorous steps are being taken by the government to make the seized German ships ready for sea and to prepare to take over ships being built for neutrals in American yards.

A bill to empower the shipping board to take foreign built craft on the ways and pay for them probably will be introduced next week. Nearly 1,200,000 tons now is building for foreign interests.

The scarcity of officers may require legislation to relax restrictions of the present law.

Nine of the seized German ships will be made ready for sea within the next thirty days.

You will find all the arguments why you should buy a Grant Six fully apparent in the car itself.

No amount of conversation—no list of details—no statements about the easy riding qualities, the simplicity, economy and beauty of the Grant Six can be half so convincing as the car itself.

So we say, come and see and drive the Grant Six. Come and compare values.
